

GOVERNMENT GENERAL DEGREE COLLEGE, TEHATTA

Tehatta, Nadia, Pin-741160

Follow-up actions taken based on Academic and Administrative Audit

As per recommendations from the external experts of Academic and Administrative Audit, follow-up actions implemented by the college are given below.

- College has provided Wi-Fi facilities for students and staff in some areas of the campus.
- College introduced new interdisciplinary add-on courses on relevant and timely topics. Sincere efforts were given to ensure participation of all the students at least in one add-on course in an academic session.
- Following encouragement from the college authority, some teachers have started new research collaborations with groups at reputed research institutes. Some have built up collaborations among themselves.
- A process has been undertaken to install a sanitary napkin vending machine inside the girls' common room as soon as possible. Besides safeguarding girl students' health and preventing infections, this measure could be very important in promoting their self-esteem, ensuring equal education & workplace opportunities and also breaking deeply rooted social stigmas & taboos towards women's physiological processes.
- A medicinal garden has been grown near the college canteen to enrich our goal to build up a green and eco-friendly college campus. The area of the already existing kitchen garden also has been increased by some extent.
- A rainwater harvesting unit has been constructed to collect the rainwater and use it for watering plants in dry season.
- To enhance reader engagement in the College Central Library, it has been automated with KOHA integrated learning management system. All the stakeholders can now access the catalog through OPAC. Also, some other upgradation (more books and racks, etc.) of the library has been done.
- With aid from the local panchayat/development block, the college has installed a central water purifier system besides the college canteen.
- Alumni association of the college has been registered. Formally, it has started its activities in the form of organizing programmes besides providing valuable inputs to the current students as well as to the college authority.
