4. On 19.03.23 Survey about the adopted village. Students ask questions regarding village life and Government facilities available in that village. Primary data was collected by the students with the help of a questionnaire and direct interview of villagers. Household duties, caring for family members, early marriage, and childbirth are all factors that contribute to girls missing out on education. In Indian cultures where these expectations are the norm, girls' education is lower on a family's list of priorities.
